BOVENBOUW

Op gras of tussen de planten kan je prima zitten bij aan een picknicktafel. Zet er bijv een grote boom bij voor goed veel schaduw

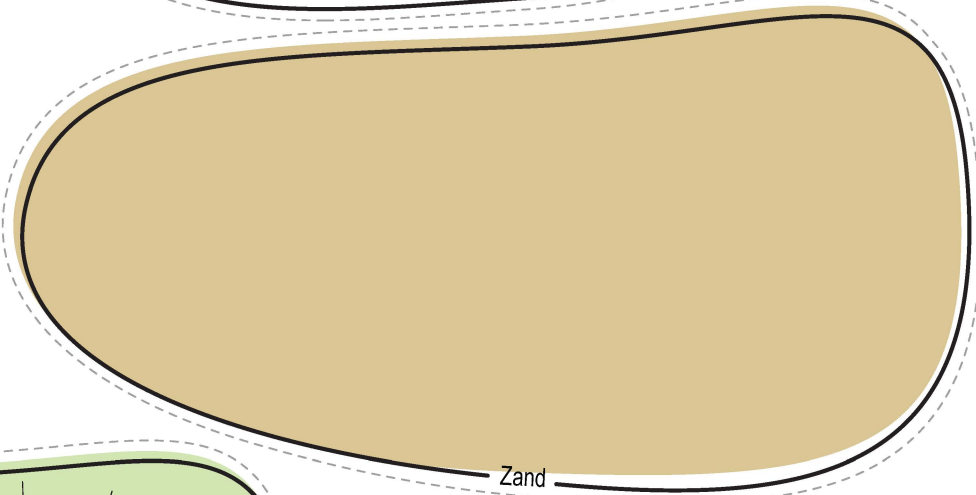

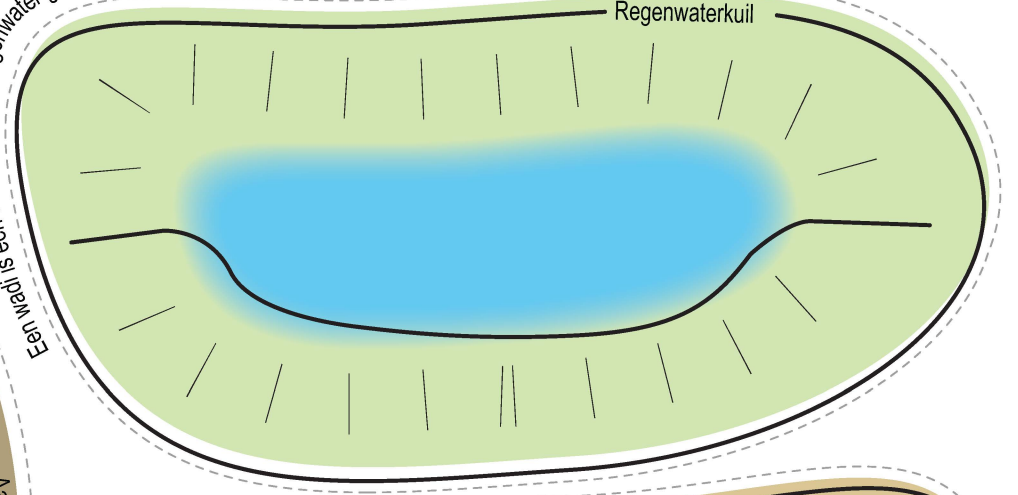

Als je een regenwaterkuil graaft heb je ook zand om een flinke speelheuvel te maken

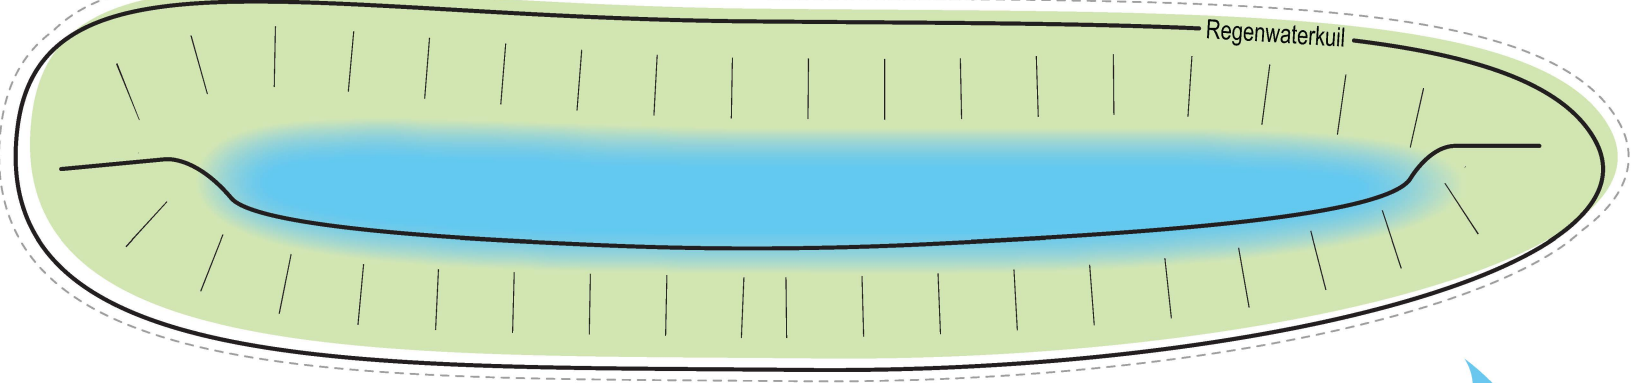

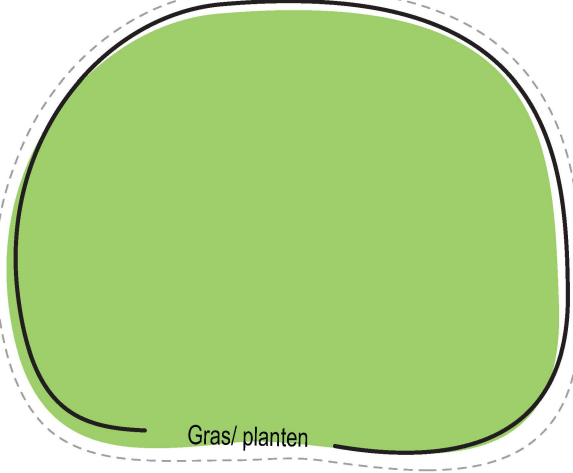

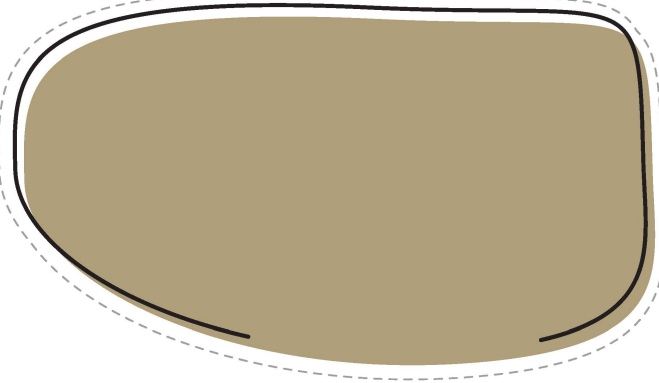

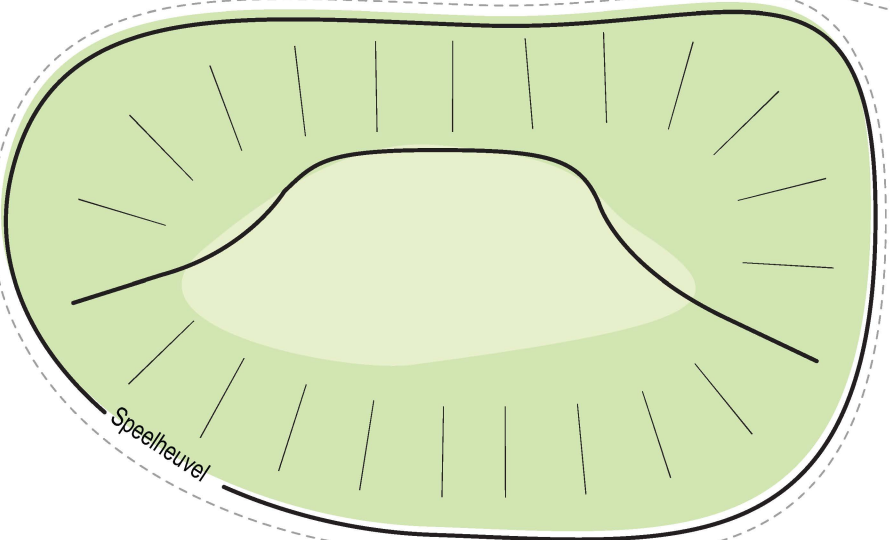

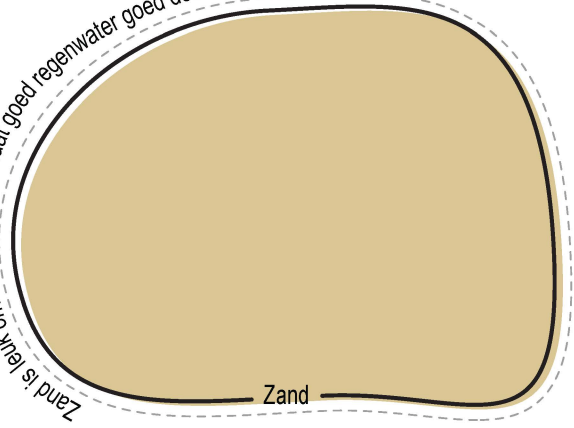

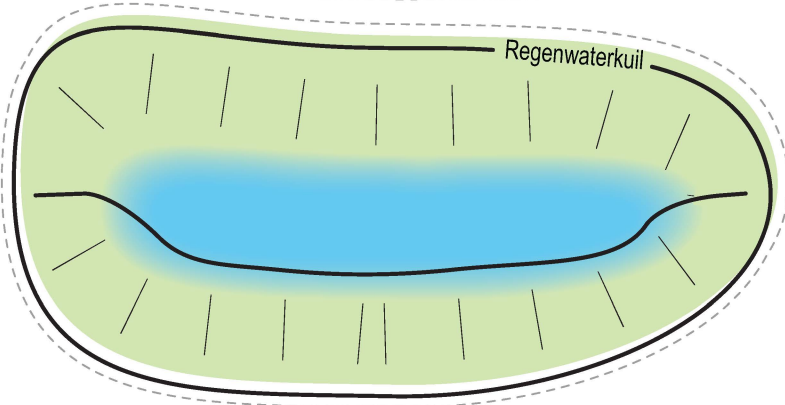

Planten en bomen houden van veel aarde, met een laag houtsnippers erop kan je daar ook goed spelen

Een wand is een kuil waarin het regenwater goed weg kan zakken

Zand is leuk om in te spelen en laat goed regenwater goed door.

BOVENBOUW

Van stoeptegels die je niet meer nodig hebt bouw je mooie randen om op te zitten of een echt podium of amfiteater. Met wat kieren tussen de tegels is er ook een schuilplaats voor kleine dieren.
